

# FUNNY LITTLE SKULLS!!!

SECUNDARIA AVANZADO

CALAVERITA

Happy and sad, you made me cry  
but you also made me laugh  
Remembering the day you were in your  
room putting your perfume, smiling like  
The good person you were. I thank you  
For the love and hugs that made me  
Feel loved

Oh grandma Oh grandma  
A big place you have in my heart  
and maybe you're not longer here  
but doesn't mean im going to forget  
Missing you like a sky without clouds  
and like spring without flowers

One day the death  
I was swimming in the lake  
When he saw a man eating one  
And the death sees  
I need one piece from his cake  
So the death was while the man

And the death asked the man  
Could you give me some of your cake  
And the man answered him Oh hi sorry  
I eat all the cake but I have in the store  
The death told him - great but drink first  
The man drink some of them first and that's how he die  
And the death was happy and ate all his cake.

## My Calaverita

The teacher Aide was working  
without anything fun to do, she star to talk  
when suddenly a voice start responding  
Aidé screamed and she scare all the neighbors  
at all  
The teacher thought she was alusinating  
when a voice out of nowhere said "you are  
not alone at all"  
In that moment the door of the classroom close  
Suddenly besides her without advice the death appear  
She couldn't believe it she thought it was a dream  
She started to scream, when the death start to laugh  
what's so funny? Aide asked to the death  
That you are going to come with me to
